COMMERCIAL WASTE

TIRES

What is Household Hazardous Waste?

TOXIC: poisonous or capable of causing acute illness

FLAMMABLE: burns easily

CORROSIVE: eats other materials

REACTIVE: explodes if exposed to water, heat or shock

This year the Great Grayling Community Cleanup (GGCC) is partnering with Household Hazardous Waste Day to bring you even more cleanup options! We will be accepting electronics for recycling as well as have dumpsters available for resident disposal. No tires or refrigerators will be accepted.

If you have any household waste labeled as TOXIC, FLAMMABLE, CORROSIVE or REACTIVE this is your chance to dispose of it in an environmentally responsible manner.

We will take: aerosols; batteries; oil based paint acid; used motor oil and other liquid automotive products; pesticides; solvents; fluorescent light bulbs; herbicides; paint thinner; insecticides; swimming pool chemicals; and unknowns

Please call (989) 344-3273 if you have any questions
